NUTS SEEDS
QUALITY SORTER

Cloud Era

- 2020** Cloud high-dimensional technology identifies material fingerprint with intelligent perception. Cloud quality sorting leads the future.
- 2019** 2019 3D intelligence newly opened the gate of third generation artificial intelligence. Cloud quality sorting defined the future direction.
- 2018** ALL IN ONE multi-core chip technology was developed in 2018. Hawkeye camera and infrared camera are combined as a great revolution of vision industry.
- 2017** The fully intelligent unattended cloud technology 3.0 led and surpassed again in 2017.
- 2016** Cloud technology 2.0 was newly initiated in November 2016 and led the view world.
- 2014** The cloud rice color sorter created a new legend in Nanchang in November 2014.
- 2013** The first cloud multi-grain color sorter of Anysort was born in June 2013 and the cloud era was initiated.
- 2010** Cloud technology strategy was started in 2010.

Leadership is the duty and the responsibility

Leadership is a commitment and the dedication

Let the whole world enjoy the highest quality food

Anysort Intelligent Cloud Sorting

Lights up the horizon and leads the future with technology and innovation

Quality, a constant pursuit of human beings.
In 1999, with the vision of letting the world enjoy the best quality food,
Anysort carried the flag of quality sorting firmly.
From color sorting to shape sorting, material sorting and intelligent sorting.
We never set a limit for ourselves.
In 2019, the era of three-dimensional intelligent quality sorting was fully started.
Anysort shares quality life with you

While light brightens human world,
Technology empowers human beings.
From visible light to infrared light and ultraviolet light.
Quality sorting starts the bright future of human beings--
Cloud diversified higher-dimensional fingerprint sensing technology,
homochromatic identification technology,
no difference between color and quality,
intelligent sensing, VNIR multispectral
deep fusion sensing technology,
hawk-eye recognition.
Quality sorting brings a revolution of vision
Quality sorting is far beyond your imagination

01 Cloud View World

Do quality sorting and keep our original intention - let the world enjoy the best quality food

02 Cloud Quality Sorting

Intelligence leads the way and opens up a new era / Every change is a breakthrough
Every transcendence starts with a brave exploration

Noninvasive high-capacity quality sorting removes impurities once and for all

TK384

TK256RD

Combining with noninvasive sorting technology, higher-dimensional fingerprint sensing technology provides all-around and full-process protection for fast moving materials, realizing higher-dimensional fusion recognition to coloring, shaping and impurity of large particles. Intelligence senses everything and color sorting leads the future.

SAMPLE OF REJECTS FOR RAW/PROCESSED NUTS AND KERNELS

SAMPLE OF IMPURITIES FOR RAW/PROCESSED NUTS AND KERNELS

SAMPLE OF REJECTS FOR RAW/PROCESSED TREE NUTS

SAMPLE OF IMPURITIES FOR RAW/PROCESSED TREE NUTS

03 Cloud World

Technology creates unlimitedness and color sorting creates more possibilities / Focus on details and keep the whole situation in view / Every model is for leading the world

Intelligent sensing - the future of quality sorting

VM764

VR1064

Hawk-eye recognition technology, combining with intelligent shape-sorting technology and one-button cloud intelligence technology, can accurately remove various seeds, nuts and kernels that have very tiny differences from normal ones in color, shape and material. It brings super-high accuracy and ultra-low carry-over ratio.

SAMPLE OF IMPURITIES FOR SEEDS, NUTS AND KERNELS

Intelligent tetrachromacy allows you to quality sort freely

VL1200

LK1060

Slow-lowering transmission structure integrates long viewing distance open-style design, hawk-eye recognition system and one-button cloud intelligence technology. This gentle slowing and hitting mechanism combines with intelligent tetrachromacy to provide quality sorting easily, and prevents breakage of materials by caring each grain of your cashew nut.

Cashew nut sorting solution

Model and Specification

Model	Air consumption(%)	Air pressure	Power(kw)	Power Supply	Dimension L*W*H(mm)	Weight(kg)
TK64	<0.8	0.6-0.8	1.0	380/50	3600*700*2450	600
TK128	<1.2	0.6-0.8	2.15	380/50	3600*1400*2450	1120
TK192	<1.6	0.6-0.8	3.0	380/50	3600*1720*2450	1725
TK256	<2.4	0.6-0.8	3.23	380/50	3600*2040*2450	2130
TK384	<3.6	0.6-0.8	4.5	380/50	3600*2680*2450	2950
TK64RD	<0.8	0.6-0.8	1.0	380/50	3600*700*2450	600
TK128RD	<1.2	0.6-0.8	2.15	380/50	3600*1400*2450	1120
TK192RD	<1.6	0.6-0.8	3.0	380/50	3600*1720*2450	1725
TK256RD	<2.4	0.6-0.8	3.23	380/50	3600*2040*2450	2130
